MAUD POWELL ON FORESTRY OPERATIONS DURING NOVEMBER

Famous Violinist Finds Serious Justification for "Canned Mus c"

The day has passed when the serious musician scoffs at the talking contrivances as unmusical and unthey are effective means of carrying music's message to thousands who would be unable, otherwise, to become acquainted with the world's great musical masterpieces.

Among the staunch advocates of the phonograph as a worthy musical instrument, is Maud Powell. American violinist who is to appear

MATD POWELL

here in recital at the Hawalian Opera House on Friday, December 27. "Those who live in large cities often fail to realize what the talklarge," declared Madame Powell. "On from Red Timber, Mont., and i met the owner of a sheep ranch. That man could talk more intelligently about music than could the average concert-goer in New York City: He discussed voices, operas, violinists, cellists, and, in fact, everything pertaining to music in delightful fashion -and he knew these things only because of his phonograph.

"I have had similar experiences in other out-of-the-way places, and to introduces, even though in fragmentary form, the best music written, to the farmer, the miner and the villager, who haven't the opportunity to

David Haughs, forest nurseryman, and forestry that he sold 750 and gave away 5681 plants in November.

a total of 6431. been received for 30,000 eucalypt seedlings and the nursery has distributed 64,000 seedlings in seed boxes and 13,000 trees in transplant boxes ready to set out.

planted in the U.S. experimental plot machine. Prominent artists who are with few exceptions doing very formerly looked upon such mechanical well and will soon be large enough to take care of themselves. Mr. worthy are gradually conceding that Haughs says that the Japanese contracts for thinning the algaroba forest at Nanakuli is working according to contract and is anxious to do satisfactory work.

Tantalus Forest "The cutting down of the dead trees in the forest is complete," says Mr. Haughs, "with the exception of a few scattering trees which will be cut down and used for firewood in sterilizing soil at Makiki station. One hundred cords have been sold to Mr. Tanabe, who cuts it up and sells it for firewood.

"The matter of people taking soil from the government lands on Tantalus bas been investigated. After an examination of the lands along the main road and trails we have not been able to find any indications that would lead us to suspect that soil has been removed. The main road has also been watched but without success. One Japanese was found in town who was selling soil at 75 cents per bag. This soil he assured us came from Mr. Frank Cooke's place in Palolo Valley, and that he had received permission from Mr. Cooke to

CAMPAIGN CONTRIBUTIONS IN ENGLAND

The practice of making big campaign contributions is not confined lege learned the trick in England or whether the Englishman yearning for a title got the formula over here,

we don't know. It is gratifying to hear, though, that we have taken the lead in blocking ing-machine means to the country at privilege barter; and it is positively exhilirating to be informed that Engone of my recent tours in the West land is looking to us to show her how made a side-trip thirty-five miles to stop the peerage troffic. Our informant is Perry Belmont.

Talking to the Kansas City Knife and Fork Club the other night, Mr. Belmont related a London experi-The proposed creation of a new flock of peers had brought on a sharp conflict between the Commons and the Lords. It seemed that the candidates had, as usual, given largely to the party in power. There were men in both houses who objected to the sale of titles. Some of them conme, the fact that the talking-machine sulted Mr. Belmont about our Federal publicity law. He sent them copies of it. The plan to create the new peers, however, was abandoned, consequently the need for the Ameri-Sealed tenders are invited for sup- hear concerts or operas by any other can method of prevention was post-

But the force of the object lesson is in nowise diminished. Graft, it appears, is a highly adaptable plant. It grows as luxuriantly in soil fertilized with the blood of a thousand earls as in our common clay. We have succeeded, however, in causing quite a slump in the special privilege market, and if England by sitting at It contains no onium or other narcot- our feet can learn how to keep her ics and can be given with implicit con- peerage fairly exclusive she is welfidence.
